Product description

2-Way SAT Splitter with Priority Switching

This SAT splitter with priority switching allows you to connect
2 SAT receivers to just one satellite cable.
It is ideal when only one SAT outlet or antenna cable is available, for example
when you want to use a TV with an integrated satellite tuner together with
an additional SAT receiver.

• Connect 2 SAT receivers to 1 satellite cable

• Automatic electronic Master/Slave priority switching

• The receiver connected to the Master port has priority

• Both devices can be used simultaneously within the same satellite reception level

• When the Master is switched off, the Slave can select the reception level itself

• No need to constantly reconnect the satellite cable

• No additional settings required

• Quick and easy installation …
