Product description

Goobay Satellite Window Feedthrough 26 cm – Ultra-Thin with Protective Rubber Sleeve

Would you like to route the satellite cable from your dish into your home without drilling through a wall or window frame? The Goobay satellite window feedthrough allows you to pass your coaxial cable through a suitable window or door.

The feedthrough has an overall length of 26 cm. Its 17 cm cable section is only 0.3 mm thick and 12 mm wide. Two F female sockets allow you to connect standard satellite coaxial cables fitted with F male connectors. The included rubber sleeve helps protect the designated F connection against water ingress.

The connector sections can be secured using either the included adhesive pads or mounting screws.

Key Benefits

• No drilling required: Route your satellite cable through a suitable window or door without drilling into the wall or frame.

• Ultra-thin design: Flat feedthrough section measuring only 0.3 mm in thickness and 12 mm in width.

• 26 cm overall length: Including a 17 cm cable section. …
