Product description

Cavel DG113 A+ Satellite Cable with Cabelcon True Drop F Connectors

Premium satellite connection cable with a genuine solid copper conductor – professionally assembled by Ariasat and ready to connect.

Need a reliable cable to connect your satellite receiver, TV or satellite installation without fitting F connectors yourself? This ready-made cable offers a convenient, high-quality solution.

We use original Cavel DG113 coaxial cable, manufactured in Italy, with a solid 1.13 mm copper centre conductor. Both ends are fitted with genuine Cabelcon F-6-TD 5.1 True Drop compression connectors.

The result is a ready-to-use satellite cable with secure connections, excellent shielding and low signal loss – suitable for modern digital satellite reception systems.

Your benefit: Choose the required cable length. Ariasat cuts the cable to size and professionally installs Cabelcon compression connectors on both ends.

Key benefits at a glance

• Original Cavel DG113: High-quality 75-ohm coaxial cable, made in Italy. …
