Product description

Cavel DG113 – 500m Solid Copper Satellite & TV Coaxial Cable

Looking for a reliable cable to connect your satellite dish, install new TV connections or upgrade your satellite system? The Cavel DG113 coaxial cable is a high-quality 75 Ohm cable designed for dependable signal transmission.

Featuring a 1.13mm solid copper conductor, Class A+ screening and low signal attenuation, it is an excellent choice for satellite and television installations indoors.

Supplied as 500 metres of original Cavel DG113 in white, wound onto a practical plastic reel for convenient handling and controlled unwinding during installation.

Key Features & Benefits

• Solid copper conductor: Genuine copper rather than copper-clad steel (CCS).

• 1.13mm centre conductor: Good electrical conductivity and low resistance.

• Class A+ screening: Excellent protection against external electromagnetic interference. …
