Product description

EMP-Centauri T5/10PNP-3 – Connect 2 Multiswitches to One Quattro LNB

Do you want to distribute the signal of one Quattro LNB to two multiswitches? The EMP-Centauri T5/10PNP-3 (P.122A) is a passive SAT/terrestrial splitter designed specifically for this application.

The four SAT IF levels of a Quattro LNB and an optional terrestrial signal are distributed to two separate 5-cable output groups. This allows two multiswitches, for example, to be supplied from the same Quattro LNB and terrestrial antenna.

Key Features

- Passive splitter for SAT and terrestrial signals
- Ideal for connecting 2 multiswitches to one Quattro LNB
- 4 × SAT inputs for the four signal levels of a Quattro LNB
- 1 × terrestrial input
- 2 × 4 SAT outputs
- 2 × terrestrial outputs ...
