Product description

Twin LNB Inverto Premium (IDL-P-TWL413-PREMU-OPN)

Premium Signal Quality & Maximum Durability

Are you looking for a reliable and future-proof solution for your satellite TV system? The Inverto Premium Twin LNB sets new standards in reception performance and material quality. Compared to other brands, Inverto Premium LNBs stand out with their exceptionally long lifespan and excellent signal stability.

Key Benefits at a Glance:

- **Superior Reception Performance:** Significantly stronger and more stable signal quality compared to standard LNBs, even in poor weather conditions (rain, snow, storms).
- **Integrated 4G/5G/LTE Protection:** Mobile network signals can seriously interfere with satellite reception. This LNB features advanced filter shielding technology that effectively suppresses LTE interference.
- **Future-Proof & High Resolution:** Full support for DVB-S2X, 4K and 8K UHD transmissions for an outstanding TV experience.
- **Extremely Durable & Robust:** Manufactured from high-quality materials, this LNB withstands extreme temperatures from -30 °C to +60 °C. ...
