Product description

Gibertini MFK3-49 Multi-feed holder 3-fold expansion kit for receiving signals from 3 satellites

- Material: Anodized aluminum die-cast
- Feed size: 40mm
- Rail length: 37.5cm
- Rail width: 3cm
- Minimum satellite spacing: 3°
- Multi-feed adapter MFK3-49
- Equivalent to Kathrein KEZ 03

The multi-feed holder allows for the reception of up to 3 satellites, such as Astra, Hotbird, and Eutelsat. The rail is height-adjustable through the elongated holes in the baseplate. This allows for easy tilted installation, resulting in different heights for each LNB and ensuring proper reception of 3 satellites.

Compatible with the following antennas:

- Gibertini XP Series
- Gibertini SE Series ...
