Product description

2-Way SAT Splitter with Priority Switching

This SAT splitter with priority switching allows you to connect 2 SAT receivers to just one satellite cable. It is ideal when only one SAT outlet or antenna cable is available, for example when you want to use a TV with an integrated satellite tuner together with an additional SAT receiver.

- Connect 2 SAT receivers to 1 satellite cable
- Automatic electronic Master/Slave priority switching
- The receiver connected to the Master port has priority
- Both devices can be used simultaneously within the same satellite reception level
- When the Master is switched off, the Slave can select the reception level itself
- No need to constantly reconnect the satellite cable
- No additional settings required
- Quick and easy installation ...
