Product description

VU+ Duo 4K Lite – more possibilities for 4K satellite TV

Watch one programme while recording others: the VU+ Duo 4K Lite is a Linux satellite receiver with 4K UHD picture quality and a built-in DVB-S2X FBC Twin tuner. It is designed for viewers who want to use several channels at once and customise their receiver.

Key benefits

- Use several channels at once: The FBC Twin tuner has 8 demodulators. The channels available simultaneously depend on your satellite installation.
- Ready for recording: A compatible 2.5-inch SATA hard drive or SSD can be fitted in the removable tray.
- Expandable: The second tuner slot is empty in this version.
- Well connected: Gigabit LAN, dual-band Wi-Fi and Bluetooth 5.4 are built in.

More features

- Fast channel switching, Linux/Enigma2, HbbTV and transcoding
- 4K UHD (2160p) with HEVC/H.265 video decoding ...
